ABOUT ME

Software Engineer with expertise in full-stack development, specializing in .NET MVC, Angular, and MERN stack. Experience in JWT authentication, Stripe integration, and CRUD applications. Completed an internship at Unicom SD, where I developed scalable applications. Currently pursuing a BSc in Software Engineering, with strong problem-solving skills and technical expertise.

SKILLS

Programming Languages:

- Java
- C#
- JavaScript
- HTML, CSS, Bootstrap
- SQL, MSSQL
- TypeScript
- Data Structure
- Design patterns, OOP

Frameworks and Libraries:

- Angular
- .NET
- ASP.NET MVC
- Entity Framework

Tools and Platforms:

- Adobe XD
- Postman
- Azure DevOps
- Git,Wordpress
- MS Office (Excel, Word, etc.), Canva

Quality Assurance:

- Manual Testing
- Debugging
- Postman API
- Test Plans and Test Cases
- Azure DevOps
- Browserstack, (CI/CD)
- Version Control Systems
- Selenium (Automation)

EXPERIENCE

SOFTWARE ENGINEER INTERN **Nov 2022 – May 2023**

Unicom SD

- Developed .NET MVC applications and optimized CRUD systems with Angular & MS SQL.
- Implemented JWT authentication and Stripe payment integration.
- Designed Excel sheet download functionality with data validation.
- Built Bookstore & Hotel Management Systems using MERN stack.
- Travel booking system: that allowed users to book trips, manage itineraries, and make payments. Added features like real-time availability, booking confirmations, and customer accounts.

INTERN QA ENGINEER **July 2023 – October 2023**

Unicom SD

- Conducted manual testing, wrote test plans & test cases, and performed debugging.
- Tested APIs with Postman, ensuring smooth integration and performance.
- Used Azure DevOps and BrowserStack for test execution and issue tracking.
- Worked with CI/CD pipelines and Version Control Systems to streamline testing

EDUCATION

Diploma in Business Application (2019)	MCS IT Campus
Diploma in English (2020)	British College
HND in Software Engineering (2020)	BCAS Campus
BSc in Software Engineering (Ongoing, 2024)	ICBT Campus
